Here's what was received.

iOS Mobile App Development Class - Equipment Survey - Fall 2026

Please complete this survey so that we can get a better understanding of the equipment available to students taking this class.
Your email (lrozenman2022@fau.edu) was recorded when you submitted this form.

Do you currently own a Mac computer? *

☐ Yes

☒ No

If you do not own a Mac, do you plan to buy/borrow one for this course? *

☐ Yes

☒ No

If you do not own a Mac and do not plan to buy one, do you intend to use the remote class systems provided for Mac access? *

☐ Yes, I will use the remote class systems.

☒ No, I have another solution.

Is there anything else you'd like to share regarding your access to a Mac for this course?

I am going to use the macs from the library.

Part 3

FAU iOS Mobile App Dev - Fa... # introduction

University of Kansas and plan on finishing my undergrad degree here. Can't wait for this semester!

Javier Vargas 8/24/2026 12:57
Hello, My name is Javier Vargas, I am a computer science student with a minor in Cyber Security. I have never used Swift before but I'm very interested in how it compares to other mobile app development environments I've used.

Jadyn Reid 8/24/2026 13:01
Hi im Jadyn Reid, Im a computer science student with a minor in Cyber Security. Ive used Swift a tiny bit before but im super excited for this class and what we will learn from it

Angelina Guasti 8/24/2026 13:02
Hi everyone! My name is Angelina Guasti. I'm excited to learn more about mobile app development and improve my SwiftUI skills. I look forward to working with you all this semester!

Alex Manzanares 8/24/2026 13:16
Hello everyone, my name is Alex Manzanares. I am a CS major with a minor in AI and Cybersecurity. Very excited to learn more about mobile application development and to start building projects.

Ian Collins 8/24/2026 13:20
Hello everyone, my name is Ian Collins, and I am a Computer Science major with a minor in Artificial Intelligence. This is my last semester of undergrad at FAU. I am excited to learn how to develop and deploy iOS apps.

Diego Lopez 8/24/2026 13:46
Hi People!

I am Diego, I am a computer science major with a minor in cybersecurity here at FAU. I looking to learning more about iOS Mobile app dev as I have messed around a lot with web dev and some app dev myself over the summer. Look forward to meeting everyone and seeing what bright ideas you people can come up with!

Lucas Rozenman 8/24/2026 14:41
Hello! My name is Lucas Rozenman and I am a CS major. I am looking forward to learning a lot from this class as I think that phones are vital to everyone's life nowadays!

Ismael Alvarez 8/24/2026 15:00
Hello, my name is Ismael Alvarez. I'm a computer science major with a minor in cyber security. I've always been curious as to how apps are made so this class should be pretty insightful.

Part 4

Lab0 iPhone 17 Pro E213-studio-14.ad.fau.edu

View Controller

First Last School Pets More Pets? Introduce Self

```
1 // Lab0 - Created by Lucas Rozenman
2 import UIKit
3
4 class ViewController: UIViewController {
5
6     @IBOutlet weak var firstNameTextField: UITextField!
7     @IBOutlet weak var lastNameTextField: UITextField!
8     @IBOutlet weak var schoolNameTextField: UITextField!
9
10    @IBOutlet weak var yearSegmentedControl: UISegmentedControl!
11
12    @IBOutlet weak var numberOfPetsLabel: UILabel!
13    @IBOutlet weak var morePetsStepper: UIStepper!
14    @IBOutlet weak var morePetsSwitch: UISwitch!
15
16    @IBAction func stepperDidChange(_ sender: UIStepper) {
17        numberOfPetsLabel.text = "\(Int(sender.value))"
18    }
19
20    @IBAction func introduceSelfIdTapped(_ sender: UIButton) {
21        // Let's us chose the title we have selected from the segmented control
22        let year = yearSegmentedControl.titleForSegment(at: yearSegmentedControl.selectedSegmentIndex)
23
24        // Creating a variable of type string, that holds an introduction. The introduction interpolates the values
25        // from the text fields provided.
26        // Currently we can only present the information in a print statement. However, this lets us verify that
27        // our app is printing out what is intended!
28        let introduction = "My name is \(firstNameTextField.text!) \(lastNameTextField.text!) and I attend
29        \(schoolNameTextField.text!). I am currently in my \(year!) year and I own \(numberOfPetsLabel.text!)
30        dogs. It is \(morePetsSwitch.isOn) that I want more pets."
31
32        // Creates the alert where we pass in our message, which our introduction.
33        let alertController = UIAlertController(title: "My Introduction", message: introduction, preferredStyle:
34        .alert)
35
36        // A way to dismiss the box once it pops up
37        let action = UIAlertAction(title: "Nice to meet you!", style: .default, handler: nil)
38
39        // Passing this action to the alert controller so it can be dismissed
40        alertController.addAction(action)
41
42        present(alertController, animated: true, completion: nil)
43    }
44
45    override func viewDidLoad() {
46        super.viewDidLoad()
47    }
48 }
